

Photo Comic Life in Self Isolation!

#BXDailyActivity

(For all ages)

Create your own photo style comic strip that tells your story of being locked up in self isolation!

Use a camera or smartphone to take a series of photographs telling your story.

Print and cut out your photos, arrange them on the page to tell your story then stick them in place.

You can then cut out and write your own speech bubbles, stick on other images and draw over the top of your photos.

**No home printer?
Do it digitally!**

You can upload your photos to the website below to make a comic. Then add speech bubbles, clipart and other effects as instructed on the website.

www.freecomickmaker.com/photo-comic
This website is 100% free.

For extra fun you can also turn your photos into a cartoon before making your comic.

www.cartoonize.net
Free for basic use, sign up is required.

My Life in Self Isolation Day 1

There are many more websites online to choose from and apps for mobile phones at the **Google Play Store** for android devices and the **App Store** for iPhone.

**Please share your wonderful creations with us.
We'd love to see them!**
