Drawing Challenge & 20 Steps

Drawing Challenge

Can you draw in the rest of the camera?

Try to get all the details. You can search for images of a camera online to find one that matches.

Afterwards, you can colour in your picture. Remember to take a photo of it and share your results with us!

Photography Task: 20 Steps

You can play this game in the house or on your daily exercise walk.

Start by taking 20 steps in any direction. When you stop at step 20 you must take a photo of what you see in front of you. Then do it again! Keep going until you have enough images to make a photo collage.

Please share all the results from your activities with us.

We'd love to see them!
