Spot the Difference & Document Your Dinner

Spot the Difference

Can you spot the 6 differences between these photos?

Draw a circle around each difference, then take a photo of your finished work and share it with us.

Document Your Dinner

Photography can be used to document things, so for this activity we want you to join forces with mum and dad and take photos of them making dinner, then arrange the photos in order of how they made it, kind of like a recipe!

Please share all the results from your activities with us.

We'd love to see them!
