Spot the Difference and Photography Task

(For all ages)

Spot the Difference

Can you spot the 6 differences between these photos?

Draw a circle around each difference, then take a photo of your finished work and share it with us.

Dummy Book

For this activity you will need:
Paper, scissors, glue and of course your photos.

To make your photo-book, cut out and glue your photos in any order you want. Cut out backgrounds from wrapping paper, stick on stickers and even write notes or descriptions.

Images provided by Bobby, a Belfast Exposed workshop participant.

Please share all the results from your activities with us.

We'd love to see them!
